John -- I understand from your office that you are traveling and were not available this morning. I am pretty well booked most of the day, but please let me know if there is some time you can talk. [Alternatively, if we can speak with John C. (obviously with GE reps on the line) that might be helpful, but I'll understand if that isn't possible.]

John,

I would like to work through this further. I will give you a call this morning -- perhaps around 9:30?

Walter. From our conversation I think you may have mistakenly taken away that our proposal is not an improvement on what occurred in phase 1. This is not correct and to understand will take a few moments longer than we had on the call.
